“Nan was a very special person to me. I have known her my entire life but actually got to "know" her about 11 years ago when Belinda and I became close friends. Nan always invited me in and asked about my dad, brother, husband and kids. If she felt I needed her advice she told me what she thought regardless if I wanted to hear it or not, lol. In the beginning I called her Faye but over time I kind of became a part of the family and began calling her Nan. Many times I have sat on her couch and cried to her and although there were very few times she cried on my shoulder I was glad I could be there for her when she needed a friend. I miss walking into her house, you never knew who was going to be sitting on her couch or in the kitchen but you always felt welcome. I drive by there now and a pain shoots through my heart knowing that I can never walk in there again and talk to Nan and how many people loved her. You will be greatly missed Nan. You were kind but told it like it was and that made you wonderful. I love you and will never forget you. Your other daughter, Sabrina.

“She was my mamaw and i will never forget the times she has took care of me when i needed her the most. Most of all she loved my children and they loved her too she will never see them get older and get to have children of their own. Although her time here was shortened we have many memories of good times and bad times but no matter what i done to her she always forgave me. She will always hold a special spot in my heart. She will be forever in my heart and in the heart of many others! I love u Nan and will miss u dearly. RIP xoxoxoxoxoxo

“ Here we go, Faye was my mom, im her baby girl and probly the meaniest one when we were little, i remember when we lived at the mouth of bear fork, all the other girls carla, cheryl, and gloria were at school, i wanted to go out and play, mom said you can but dont get in the creek and daddy said there is broke glass and tops to old cans and they will cut your foot off, i promised i would not but... i lied and got my foot cut wide open. We lost daddy when i was 14 years old, we had to learn to cope with it, and mom was our mom and daddy and it was hard, but know matter how hard it got she always come out on top, she took care of 4 girls by herself and always showed us her love, she was 36 when dad died and never remarried, my heart feels so empty and numb, i want to pick up the phone and call her and i cant, and it hurts so bad and i no my sisters feel the same way. Mom will never be forgotten she would give people homes when they did not have a place to call home, in all my life ive been to a lot of funerals in my time and i have never seen so many grown men cry like they did at hers,( it take a real man to show his true feelings) and i love you all. I dont no what to do with myself, it is so hard to drive in her driveway and know she is not sitting on the pourch or listening to her music, i miss you so bad, our lives will never be the same, my beautiful, sweet, loving mom. one day we will be with you and daddy again. Love you always your baby !!!!!!!!!!!!!

“ I have a lifetime of memories with Faye & her family. I remember her husband, Gene, very well too. I don't even know where to begin to describe my feelings for either of them. I loved them both & I love their family. They've been very good to me & my family. One of my fondest memories is a recent one. Faye's sweet sister, Lilly, had came in for a visit & Lori & I met them at Jerrys Rest. for dinner. We had the best time. We talked about the past & laughed for hours. I loved to hear Faye laugh. I saw her a few times after that & she always told me to take care of myself & that she loved me. Faye always had a way of reminding me about what was important. She'd say, "It's not what you got in this world, it's who you got that counts". She knew that I was having a hard time coping with the death of my Daddy & Bobbi Lois, so she always said the right thing to me. (Trust me, that's not easy because I've heard a lot of the wrong things lately) I know beyond a shadow of doubt that Faye loved us girls. She took special care of Bobbi many times. I loved her & I know for certain that her family loved her & misses her dearly. I can't help but say something about Gene too. Gene was loved by so many people, but he was very special to me. Gene saved my life a time or two when I was little. The first time was when he saw me standing in the middle of the road. I didn't even have time to say a word before he jumped out of his car & snatched me up in one hand & started killing snakes with the other. I had thrown a piece of old wood onto a nest of poisonous snakes & they seemed to swarm after me. Needless to say, I thought that he was a Superhero from that day on!

“ Faye was a wonderful person in my life. She taught me many things over the 31 years I knew her. I watched her struggle in life but she always fought hard for what she believed and came out victorious. So many memories fill my mind but the one that stands out the most is how she always told me she loved me every time before I left her house or hung up the phone. There is a void in my life now that cant be filled. I love you Faye and I miss you with all of my heart!
