“ Grandma Betty was a role model beyond measure, and not just for the women in this family but to women everywhere. Her accomplishments starting from her young age when she started teaching, becoming a principle, school board involvement, mayor, and returning to school in her 60's to continue her education is just astonishing. She always seemed unstoppable to me. I will always remember her as an inspiration and a hero to look up to. I love you grandma you will be missed and remain an inspiration not only for this generation but for every generation to follow!
