“ I'm not sure if this Jackie Kinney taught Algebra in the early 1980's at Lee County Middle School in Leesburg, GA, but if she did, I became a college math instructor because of her, and even if she did not teach in Leesburg, GA, from the posts I've already read--- thank you for being such a 'Wonderful' teacher of Algebra. Because of you, many students benefited and learned and were successful. I have tried for many years to find you, Mrs. Kinney, so that I could tell you 'thank you' for positively impacting and changing my life and my career path, but I never was successful in finding you. I wanted you to know that you made a difference.  
My deepest sympathy goes out to you, DJ.  
Know that your Mom lives on through you and through her students.
