“ You are absolutely the best papaw anyone could ever ask for! As a kid I used to think you were invisible like nothing and nobody could ever touch you! You protected me from all the bad things and when there was no way to protect me you were my absolute rock! I love you more than anyone or anything in this whole world and I know you will be waiting for me with a fishing pole and a bucket of chicken liver. Fly high papaw and protect me and the family until we meet again!!!

As I sit here today trying to be strong and make notifications, trying to be there for Sheila and Tommy, all I can do I wish this was all just a horrible nightmare. You accepted me and Ana as part of your family for a year before Tommy and I even got married. You were the closest thing to a father figure I ever had and Ana just loved cutting up with you. I know your death has caused a lot of people heartache because you were greatly loved by not just family and friends but the community as well! You made an impact on so many different people's lives Larry and we will all forever be grateful for that. I love and miss you so much. I try not to show it but I'm just so lost without you. The only thing that gives me any peace is knowing that you're no longer suffering with your legs swelling and hurting at the end of a long work week or that your heart and lungs are no longer physically hurting you. Knowing that you're no longer worrying about worldly things or grieving your father, I know you are at peace and that's how I've gotten through this so far. Please just keep an eye on us and wrap your arms around this little family as we try to adapt to life without you until we can be together again. We love you.
